Art Unit: 1614

Restriction to one of the following invention is required under 35 U.S.C. 121.

Group I: Claims 1-4 drawn to a composition for treating hepatocellular carcinoma containing thalidomide alone.

Group II: Claim 5-8 drawn to an enhanced pharmaceutical composition containing thalidomide and an addition drug. If applicants elect this group, they are further required to elect a single enhanced combination of thalidomide ~~combination of thalidomide~~ and one other additional drug.

The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art of treating hepatocellular carcinoma as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to one enhanced combination of drugs would not be a reference to another enhanced combination of drugs under 35 U.S.C. 103. Further, the claims read on a multitude of enhanced combinations of drugs which would require many field of searches that would be an undue burden on the Examiner. Therefore, restriction for examination purpose is proper.

Applicants are required to make a provisional election even though this requirement is traversed.
